expressions used in the rendering of the Uniform Contract Format (UCF) version of PDS contract data. It also details where each element used is located within the UCF. Unused X-paths are noted and include details explaining why they were excluded from the current rendering. This spreadsheet lists only X-paths that include the path of AwardInstrument (with some exceptions). Contract Modifications (AwardModificationInstrument X-paths) will be detailed in subsequent

Column A: Contains the X-path expression

Column B: Denotes if the X-path expression will be used in the rendering of the contract pages ('Y' 1

Column C: Denotes if the Xpath expression is in Section A of the UCF contract

Column D: Denotes if the Xpath expression is in Section B of the UCF contract

Column E: Denotes if the Xpath expression is in Section C of the UCF contract

Column F: Denotes if the Xpath expression is in Section D of the UCF contract

Column G: Denotes if the Xpath expression is in Section E of the UCF contract

Column H: Denotes if the Xpath expression is in Section F of the UCF contract

Column I: Denotes if the Xpath expression is in Section G of the UCF contract

Column J: Denotes if the Xpath expression is in Section H of the UCF contract

Column K: Denotes if the Xpath expression is in Section I of the UCF contract

Column L: Denotes if the Xpath expression is in Section J of the UCF contract

Column M: Notes explaining why an X-path was excluded from the current rendering of the contract

for yes it is used or 'N' for no it is not used)
